

UltraMAX™ EZUV™

Whole House Germicidal UV Air Treatment

Improve
your
Indoor Air
Quality!

So everyone breathes easier!

- Kills Airborne Bacteria and Viruses
- Controls Mold
- Reduces Allergens
- Deodorizes
- 24VAC Powered
- Keeps HVAC Systems Cleaner Increasing HVAC Efficiency—Saving Energy!

Indoor air as healthy
as the great outdoors™

Do you have these problems or concerns?

- **Odors?**
(dirty sock smell)
- **Allergies?**
- **Air conditioning components clogged with bio-growth?**
- **Airborne mold?**
- **Unwanted pet smells?**
- **Algae growth inside of air conditioning system?**

UV offers a real solution!

Ultraviolet light reduces or eliminates harmful mold, bacteria and airborne pathogens—in a fraction of a second! Ultravation patented technology ensures optimum performance, regardless of the severity of the problem.

Ultravation®
Professional Indoor Air Quality Products

ultravation.com

Protect your family from high concentrations of airborne germs viruses and allergens...

UltraMAX™ ultraviolet air treatment is specially designed to maximize the power of UV light for the improvement of indoor air. UltraMAX™ installs in central heating and air conditioning systems to disinfect the air, and keep the interior surfaces of the HVAC system free of mold and other biogrowth. The result is a reduction of airborne microorganisms in your home, including allergens—especially mold!

**Make a healthy improvement
to your indoor air quality**

We are indoor air quality *specialists!*

Ultravation is a leading manufacturer of indoor air quality products, with over thirty years of ultraviolet expertise. For more information on Ultravation indoor air improvement products visit ultravation.com. Remember, if it does not say Ultravation on the label you are not getting the most value for your investment!

UltraMAX™ EZUV™

Whole House Germicidal UV Air Treatment

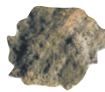

UltraMAX™ UV destroys airborne germs to hold down the spread of colds and other illnesses transmitted through the air. Allergy sufferers enjoy relief because UltraMAX™ kills mold and mildew on the wet surfaces inside HVAC equipment—and keeps them clean—eliminating a major source of airborne allergens (especially mold spores) and musty odors inside your home. An UltraMAX™ EZUV™ air treatment system is an economical yet effective way to automatically “clear the air” of unwanted germs, allergens and odors.

- **Low voltage (24VAC)—No electrical outlet required. Connects to any 24VAC HVAC transformer.**
- **Install in new HVAC systems to keep them like new.**
- **Install in problematic HVAC systems to reduce biological contamination and make the air healthier.**

Ultraviolet light (UV-C) is germicidal and will control surface and airborne...

Bacteria

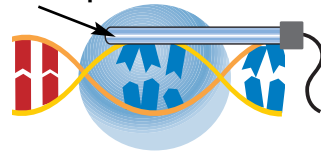

Surface and airborne mold

How UV works

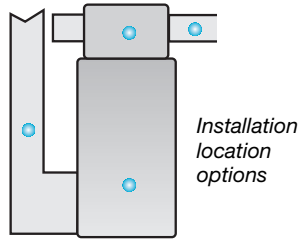

UV rays breakdown bacteria, virus, mold and mildew DNA, rendering the microbes harmless.

UV lamp

UltraMAX™ EZUV™ kit includes

- Mounting brackets and wiring
- UV status viewport lens
- UV lamp safety interlock system
- Premium High Intensity UV-C Lamp (12" and 17" lamps available)
- 24VAC power supply
- UV light shield

Installation location options

Installs directly in your heating and air conditioning system. *Note: We recommend that UltraMAX UV be installed by HVAC professionals who are trained in UV systems and to determine optimum lamp placement.*

Lamp System Safety Interconnect prevents accidental exposure to UV when lamp is changed.

Ultravation® Electronic Power Supply outperforms by far old fashioned ballasts in efficiency and extending UV lamp life. Compact in size it easily mounts inside or outside the air handler.

<< **Patented Remote UV lamp** system makes it possible to optimize placement for maximum effectiveness.

Costs only pennies a day to operate—no more than a small fluorescent lamp.

Works for you 24/7, silently and unobtrusively, operating out of the way in your heating and air conditioning system. Nearly maintenance free: Simply replace the UV lamp just once a year as part of your annual service!

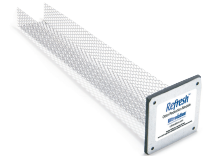

There is an UltraMAX™ system at every level of performance need

- **UltraMAX™ GOLD**
No UV system has more UV capability! Maximum UV output intensity plus electronic monitoring for operation and UV lamp life. Shown with optional UV focuser and shield, single 12" lamp.
- **UltraMAX™ UME**
When maximum UV effectiveness at the lowest possible cost. Shown with two 17" T3™ UV lamps.

UltraMAX™ options

- **Refresh™ Odor Reduction**
Powered by UV, the Refresh™ module works like a automotive catalytic converter to break down hundreds of household VOC odors (from cooking, cleaning, painting, pets and much more).

Photronic™

Whole House Air Purification

Treats **all** major indoor air pollution sources! Includes **UltraMAX™** germicidal UV air treatment plus **ProgressiveMedia™** hypo-allergenic premium air filtration, and the **ReFresh™** high capacity PCO odor reduction system

Available from...

We recommend that UltraMAX™ UV be installed by HVAC professionals who are trained in UV systems, and how to determine optimum lamp placement.
